

Ideation Phase
Define the Problem Statements

Date	22 June 2026
Name	Giritharan D
Project Name	An employee or students submits an innovation idea through the Innovation Hub, where it is reviewed by a reviewer and approved or rejected by a manager.
Maximum Marks	2 Marks

Customer Problem Statement Template:

The **Customer Problem Statement** helps identify the challenges faced by employees and students while submitting, reviewing, and approving innovation ideas within the organization. It captures the needs of end-users, reviewers, and managers, including their goals, difficulties, and expectations during the innovation process. Understanding these challenges enables the development of an automated **InnovateHub** solution in **ServiceNow** that simplifies idea submission, streamlines the review and approval workflow, improves idea tracking, and provides a transparent and efficient innovation management process.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An employee or student with a new innovation idea.	Submit my innovation idea easily and quickly.	The current process is manual and ideas are not stored in one place.	There is no centralized system for submitting and managing ideas.	Confused and discouraged from sharing ideas.
PS-2	A reviewer assigned to evaluate ideas.	Review ideas and provide feedback efficiently.	The review process is unorganized and difficult to manage.	Ideas are reviewed manually without a structured workflow.	Delayed and less productive.
PS-3	A manager responsible for approvals.	Approve or reject reviewed ideas quickly.	Approval decisions are not recorded in a single system.	There is no automated approval workflow.	Inefficient and time-consuming.
