

Project Design Phase-II

Data Flow Diagram & User Stories

Date	23 June 2026
Name	Giritharan D
Project Name	An employee or students submits an innovation idea through the Innovation Hub, where it is reviewed by a reviewer and approved or rejected by a manager.
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

User Type	Module	User Story ID	User Story / Task	Input	System Process	Expected Output
End-User	Idea Submission	US-1	As an end-user, I can submit a new innovation idea.	Idea Title, Description, Category, Department	System validates and stores the idea.	Idea is submitted with a unique Idea ID.
End-User	Idea Management	US-2	As an end-user, I can edit my idea before review.	Updated idea details	System updates the submitted idea.	Updated idea is saved successfully.
Reviewer	Idea Review	US-3	As a reviewer, I can review the submitted idea.	Reviewer name, Comments	System records the reviewer details.	Review comments are saved.
Reviewer	Review Decision	US-4	As a reviewer, I can update the review status.	Review Status	System updates the idea status.	Status changes to Reviewed or Forwarded to Manager.
Manager	Approval	US-5	As a manager, I can approve or reject the reviewed idea.	Approval Status	System records the manager decision.	Idea is Approved or Rejected.
Manager	Final Comments	US-6	As a manager, I can provide approval comments.	Approval Comments	System stores manager comments.	Final comments are saved successfully.
End-User	Status Tracking	US-7	As an end-user, I can view the final status of my idea.	Idea ID	System retrieves the latest status.	User can see the final approval/rejection status.
